Day 2: Lake Manyara

In the morning, after breakfast (around 7:30 AM), your safari guide will arrive at the hotel and inform the receptionist that he is waiting for you. After meeting your driver, you will travel to Lake Manyara National Park, and by 10:00 AM, you'll already be on your first safari!

The entire park is cut through with groundwater streams, creating a favorable environment for plant life, and as a result, attracting a variety of birds (including pink flamingos) and African forest animals.

Around lunchtime, you will visit the Maji Moto hot springs, where the driver will provide you with personal lunchboxes. After this stop, the safari will continue, and by evening, you will be transferred to your hotel to get ready for the next-day adventure in Ngorongoro!

Additional notes:

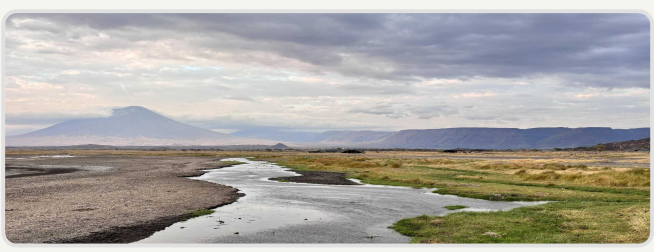

This is your first day on safari, so we kindly ask that you pay special attention to the national park visitor rules and our company’s recommendations:

- It is strictly prohibited to exit the vehicle during the safari, except in designated areas. Violating this rule may result in significant fines for the company, including the revocation of its license.
- Off-road driving is also prohibited as it can cause irreparable damage to the delicate balance of the park's ecosystem.
- Smoking is allowed during the safari, but please be extremely careful when extinguishing and disposing of cigarette butts, as they are a frequent cause of fires in the savanna.
- We kindly ask that you do not put your feet on the seats or sit on the backs of the safari vehicle’s seats, as such behavior quickly damages the vehicle.

Thank you in advance for your understanding!

Day 3: Ngorongoro Conservation Area

On this day, it is best to leave the hotel as early as possible to maximize your chances of seeing the animals that are most active in the morning. Depending on whether you'd like to extend your safari time, breakfast can either be served at the hotel or packed in lunchboxes for you to enjoy on the go. At 7:00 AM, you will depart for Ngorongoro Conservation Area, and after about an hour, you will enter the crater.

Ngorongoro is one of the most famous and fascinating national parks in Tanzania, as it is home to the highest concentration of animal species per square kilometer. During your visit, you'll have the chance to see buffalo, elephants, lions, wildebeests, zebras, hippos, and feline species like caracals and servals. The luckiest travelers may even spot a rhinoceros, whose population is rapidly declining.

By lunchtime, you will arrive at the lakeside, where you will be offered lunchboxes. Afterward, the safari will continue, and a few hours later, you will be transferred to Serengeti National Park.

Along the way, you can visit a memorial dedicated to two West German researchers, Bernhard and Michael Grzimek. Thanks to their efforts, Northern Tanzania's National Parks have survived in their natural state until today. You can read their full story in the book "Serengeti Shall Not Die", available on Amazon.com for USD 10–25.

In the evening, you will be transferred to a hotel located in the heart of the Serengeti Valley.

Here, you are sure to see: lions, antelopes, elephants, giraffes, buffaloes and zebras. There is a good chance of spotting cheetahs, serval cats and other rare animals of the African savannah. The Serengeti is a designated UNESCO World Heritage Site, chosen because of its important ecosystem, the dense population of animals and the annual Great Migration. Serengeti was the inspiration for Disney's "Lion King" feature film, but life here is not a cartoon - it is pure, wild and beautiful. The day will take place in the central Serengeti, in a remarkably beautiful area called Seronera.
